The contract is awarded to the bank offering the lowest rate of interest. The Chittenden County Trust company's bid was 4.16 per cent.

The amount to be furnished is from obtained from time to time as the city needs the money. Short time notes are made which are payable in August and September when the city treasury is replenished by the collection of taxes.

It was formerly the custom to authorize the city treasurer to borrow the money from time to time on order of the board of aldermen, but it has been thought best, in the last few years to have one banking home do all the city's business for one year, and give the contract to the one who would make the lowest discount, thereby making a saving in the city's interest account.
